(engineer - be - journalist - successful - articles - been)

It's important to choose the right job that you would like to do. For me, I would like to be a/an ❶ ..... because I like researching and writing news ❷ .....
I know that it won't ❸ ..... an easy job, but I will do my best to be a/an ❹ ..... one.

### 3) Read the following, then answer the questions: (6 Marks)

Osama's class have been learning about the environment in their science lessons. Students have been studying the effects of pollution from vehicles. They also have been reading about how poisons from factories pollute rivers and seas. They all agree that everyone should do more to help the environment. Their teacher, Mr Ahmed, asked them to think of things that they can do. The students made suggestions. Samir said that people should walk more and use their cars less. This would keep the cities cleaner and people would be healthier. Maher said they should build car parks outside the city center where people could leave their cars. They could then walk the rest of the way into the city. Osama suggested having a bottle bin in the school where students could put their empty plastic bottles. These could be collected and recycled. Mr. Ahmed thought these were very good ideas and said he would pass them on to the head teacher.

**A. Choose the correct answer from a, b, c or d:**

1. Osama and his friends are interested in the environment because ..... .
   - (a) they have been studying about it at school.
   - (b) they think their town isn't polluted.
   - (c) they always go to school by car or bus.
   - (d) there aren't enough litter bins in their school.

2. Maher suggested that ..... .
   a people should use their cars less
   b there should be bins for bottles
   c people should park in the city center
   d there should be car parks outside the city

**B. Answer the following questions:**

3. Who was Mr. Ahmed going to tell about the students' ideas?

4. What does the underlined pronoun "These" refer to?

5. How would it help if people walked more and used their cars less?

6. What else can the students do to help the environment?
